

Process DOJO - Initial Data Requirements

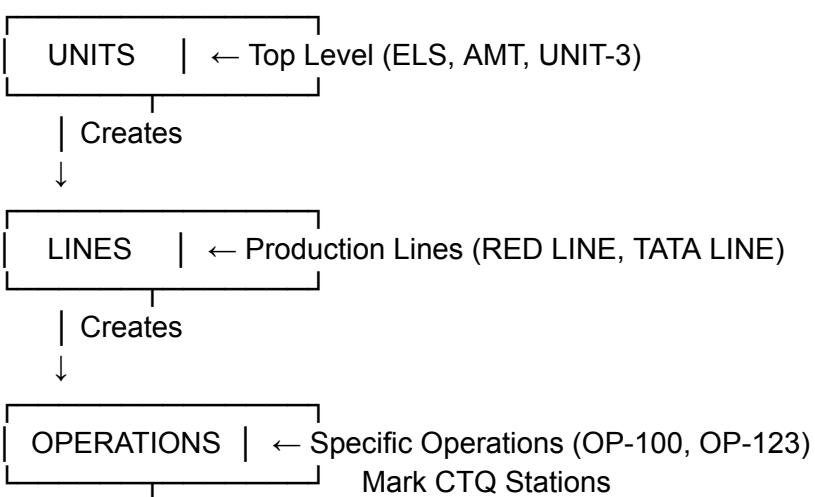

Data Collection Requirements

To set up your Process DOJO training system, please provide the following data in the specified formats:

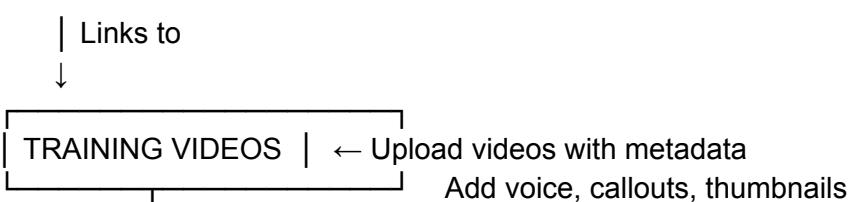

Content Creation Flow Structure

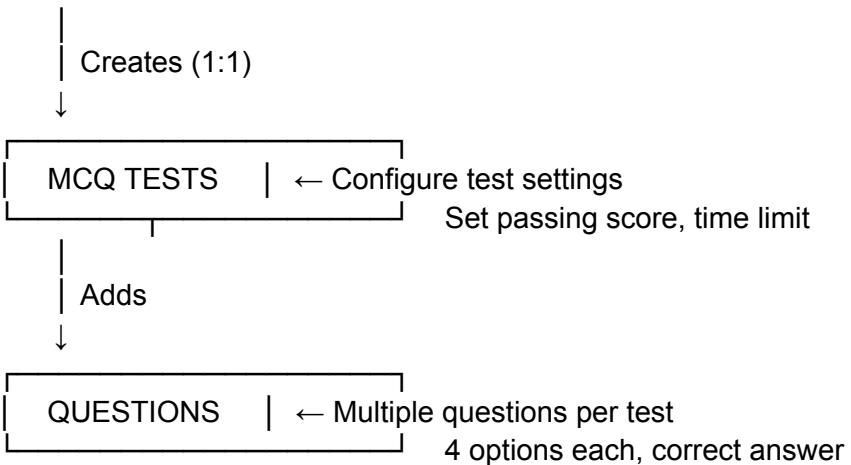

STEP 1: CREATE ORGANIZATIONAL HIERARCHY

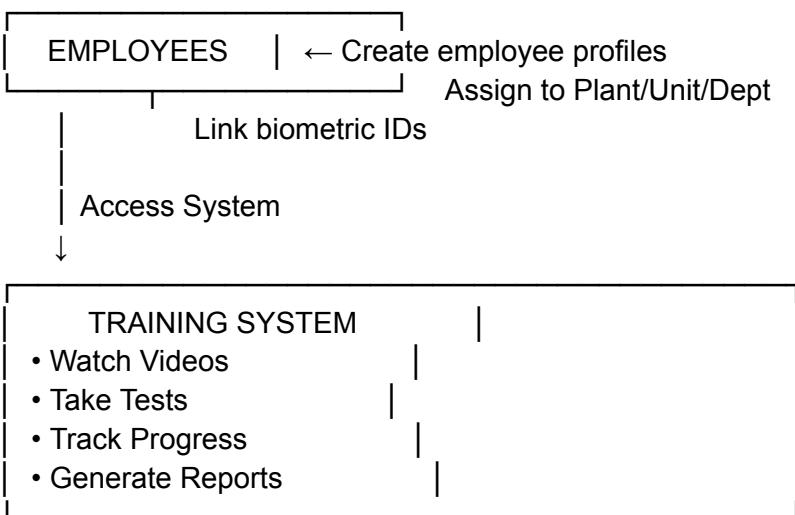

STEP 2: ADD TRAINING CONTENT

STEP 3: CREATE EMPLOYEES (PARALLEL PROCESS)

RELATIONSHIPS

Unit (1) —→ (Many) Lines
 Line (1) —→ (Many) Operations
 Operation (1) —→ (Many) Training Videos
 Training Video (1) —→ (1) MCQ Test
 MCQ Test (1) —→ (Many) Questions
 Employee (Many) —→ (Many) Video Completions
 Employee (Many) —→ (Many) Test Attempts

1 Organizational Hierarchy Data

A. Units (Excel/CSV Format)

File Name: `units.xlsx`

Unit Name	Description	Is Active
ELS	Electroplating Shop	Yes
AMT	Advanced Manufacturing Technology	Yes
UNIT-3	Production Unit 3	Yes

Required Fields:

- **Unit Name** (unique, max 100 chars)
- **Description** (optional, text)
- **Is Active** (Yes/No)

Example Data:

ELS, Electroplating Shop, Yes
AMT, Advanced Manufacturing Technology, Yes
UNIT-3, Production Unit 3, Yes
PAINT-SHOP, Paint and Finishing Shop, Yes

B. Lines (Excel/CSV Format)

File Name: `lines.xlsx`

Unit Name	Line Name	Description	Is Active
ELS	RED LINE	Red line operations	Yes
ELS	TATA LINE	Tata manufacturing line	Yes
AMT	MAHINDRA LINE	Mahindra assembly line	Yes
UNIT-3	SUZUKI LINE	Suzuki production line	Yes

Required Fields:

- **Unit Name** (must match Unit data exactly)
- **Line Name** (unique within unit, max 100 chars)
- **Description** (optional, text)
- **Is Active** (Yes/No)

Important Notes:

- Line Name must be unique within a Unit
 - Same Line Name can exist in different Units
 - Unit Name must already exist in Units data
-

C. Operations (Excel/CSV Format)

File Name: operations.xlsx

Unit Name	Line Name	Operation Name	Operation Code	Is CTQ Station	Order	Description	Is Active
ELS	RED LINE	OP-100 PLUGGING	OP-100	Yes	1	Initial plugging operation	Yes
ELS	RED LINE	OP-123 OPV	OP-123	No	2	OPV verification process	Yes
ELS	RED LINE	OP-150 FINAL CHECK	OP-150	Yes	3	Final quality check	Yes
AMT	MAHINDRA LINE	OP-200 ASSEMBLY	OP-200	No	1	Main assembly operation	Yes

Required Fields:

- **Unit Name** (must match Unit data)
- **Line Name** (must match Line data)
- **Operation Name** (unique within line, max 100 chars)
- **Operation Code** (optional, e.g., OP-100, max 50 chars)
- **Is CTQ Station** (Yes/No) - Critical to Quality stations get special highlighting
- **Order** (numeric, for display sequence: 1, 2, 3, etc.)
- **Description** (optional, text)
- **Is Active** (Yes/No)

CTQ Station Definition: Critical to Quality (CTQ) stations are operations that significantly impact product quality and require special attention during training.

2 Employee Data

Employee Master (Excel/CSV Format)

File Name: employee_master.xlsx

Employee ID	First Name	Last Name	Username	Email	Password	Plant	Unit	Department	Biometric ID
EMP001	Rajesh	Kumar	rajesh.kumar	rajesh@company.com	temp123	Plant-1	EL-S	Production	BIO001
EMP002	Priyaa	Sharma	priya.sharma	priya@company.com	temp123	Plant-1	AM-T	Quality	BIO002
EMP003	Amrit	Verma	amit.verma	amit@company.com	temp123	Plant-2	UNI-T-3	Maintenance	BIO003

Required Fields:

- **Employee ID** (unique, max 50 chars)
- **First Name** (required)
- **Last Name** (required)
- **Username** (unique, will be used for login, max 150 chars)
- **Email** (for report delivery and password reset)
- **Password** (temporary password, users can change after first login)
- **Plant** (max 100 chars)
- **Unit** (should match organizational units, max 100 chars)
- **Department** (max 100 chars)
- **Biometric ID** (optional, if biometric system is integrated, unique)

Password Guidelines:

- Minimum 6 characters
- Default temporary passwords should be changed on first login
- System supports password reset via email

Important Notes:

- Username and Email must be unique across all employees
- Biometric ID is optional but must be unique if provided
- Unit field should match the Units created in organizational hierarchy for better reporting

3 Training Content Data

A. Training Videos

Video Files Storage:

- Upload video files in **MP4, AVI, or MOV** format
- Recommended resolution:** 1280x720 (720p) or higher
- File naming convention:**
`{UnitName}_{LineName}_{OperationCode}_{Version}.mp4`
 - Example: `ELS_REDLINE_OP100_v1.mp4`
- Max file size:** 500 MB per video (larger files may require compression)

Video Metadata File: `video_metadata.xlsx`

Unit	Line	Operation	Vide o Title	Description	Duration (seconds)	Has Voice	Has Callouts	Order	Thumbnail File	Video File Name
ELS	RED LINE	OP-100 PLUGGING	Plugging Process Training procedure	Step-by-step plugging procedure	180	Yes	Yes	1	thumb_op100.jpg	ELS_REDLINE_OP100_v1.mp4
ELS	RED LINE	OP-100 PLUGGING	Safety Guidelines for plugging	Safety precautions for plugging	120	Yes	No	2	thumb_op100_safety.jpg	ELS_REDLINE_OP100_v2.mp4
ELS	RED LINE	OP-123 OPV	OPV Verification Process	Comprehensive OPV verification steps	240	Yes	Yes	1	thumb_op123.jpg	ELS_REDLINE_OP123_v1.mp4

Required Fields:

- **Unit Name** (must match exactly)
- **Line Name** (must match exactly)
- **Operation Name** (must match exactly)
- **Video Title** (max 200 chars)
- **Description** (optional, text)
- **Duration in seconds** (actual video length)
- **Has Voice** (Yes/No) - Video has voice narration
- **Has Callouts** (Yes/No) - Video has on-screen text annotations/callouts
- **Order** (display sequence if multiple videos per operation: 1, 2, 3, etc.)
- **Thumbnail File** (name of thumbnail image file, optional)
- **Video File Name** (exact name of video file being uploaded)

Thumbnail Images:

- Format: JPG or PNG
 - Recommended size: 1280x720 pixels (same as video)
 - File naming: `thumb_{operation_code}.jpg`
 - Place all thumbnails in a separate folder
-

B. MCQ Tests

Test Configuration File: `mcq_tests.xlsx`

Video Title	Test Title	Description	Passing Score (%)	Time Limit (minutes)	Is Active
Plugging Process Training	OP-100 Plugging Assessment	Test knowledge of plugging process	70	15	Yes
OPV Verification Process	OP-123 OPV Assessment	Verify understanding of OPV procedure	80	20	Yes
Plugging Safety Guidelines	OP-100 Safety Quiz	Safety knowledge verification	90	10	Yes

Required Fields:

- **Video Title** (must match video metadata exactly)
- **Test Title** (max 200 chars)
- **Description** (optional, text)
- **Passing Score (%)** (0-100, typically 60-80%)
- **Time Limit (minutes)** (minimum 1 minute, typically 10-30 minutes)
- **Is Active** (Yes/No)

Note: Each video should have ONE test. The system creates a 1:1 relationship.

Test Questions File: mcq_questions.xlsx

Test Title	Question Order	Question Text	Option A	Option B	Option C	Option D	Correct Answer	Marks	Explanation
OP-100	1	What is the first step in the plugging process?	Clean the surface	Apply coating	Insert the plug	Verify hole diameter	D	1	Always verify hole diameter before inserting plug
OP-100	2	What is the recommended torque for plugging?	10 Nm	15 Nm	20 Nm	25 Nm	B	1	Standard torque is 15 Nm as per SOP
OP-100	3	Which tool is used for plug insertion?	Manual press	Hydraulic press	Pneumatic gun	Hammer	C	2	Pneumatic gun ensures proper insertion
OP-100	4	What should be done if plug doesn't fit?	Force it in	Report to supervisor	Use larger plug	Skip the step	B	1	Never force; always report issues
OP-123 OPV Assessment	1	What does OPV stand for?	Operation Process Verification	Optical Performance Validation	Overall Process Value	Output Performance Variable	A	1	OPV = Operation Process Verification

Required Fields:

- **Test Title** (must match test configuration exactly)
- **Question Order** (numeric sequence: 1, 2, 3, 4, 5...)
- **Question Text** (the actual question, max 1000 chars)
- **Option A** (max 500 chars)
- **Option B** (max 500 chars)
- **Option C** (max 500 chars)
- **Option D** (max 500 chars)
- **Correct Answer** (A, B, C, or D only)
- **Marks** (typically 1, can be 2-5 for difficult questions)
- **Explanation** (optional but recommended, shown after answering)

Question Guidelines:

- Minimum 5 questions per test recommended
 - Maximum 30 questions per test
 - Mix of difficulty levels
 - Clear, unambiguous questions
 - All 4 options should be plausible
 - Avoid negative phrasing when possible
 - Use simple language
-
